HPC TOOLKIT ON GBV RISK MITIGATION FOR UNICEF-LED CLUSTERS/AORS

What is GBV risk mitigation?

GBV risk mitigation (GBVRM) makes humanitarian services and responses safer and more effective by proactively identifying and mitigating the barriers and risks that women and girls face, and tackling their specific needs and rights. GBVRM should be apprehended in correlation with other cross-cutting themes, such as gender, inclusion of people with disabilities, localization, and Accountability of Affected Population (AAP).

Why does it matter?

Integrating GBV risk mitigation measures is a core responsibility of all humanitarian actors, as it significantly improves the safety and well-being of crisis-affected populations. Preparing for and delivering aid and services in the safest and most dignified way allow more people to access better services. Failing to address GBV in emergencies compromises the effectiveness of emergency preparedness and response across all sectors.

How should this toolkit be used?

This HPC toolkit is a compilation of the top tools that clusters can use to strengthen GBVRM throughout the HPC. It includes practical tools for essential actions and concrete examples of integration. This compilation was the result of a thorough consultative process with partners.

Essential Links

- GBV Risk Mitigation in UNICEF-led Clusters/AoRs
- Overarching Picture of Cross-Cutting Themes and Tools
- Frequently Asked Questions

GBV risk mitigation is a key component of quality programming and contributes to sectors’ ability to meet their own core standards and targets.
**NAVIGATE THROUGH THE TOOLKIT**

The toolkit is organized into six pages of tools. Click on a phase below to reach the relevant tools. Some tools can be used across different HPC phases represented by the icons below.

<table>
<thead>
<tr>
<th>Phase</th>
<th>Top GBV Risk Mitigation Activities</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Overarching (Across All Phases)</strong></td>
<td>☑ Proactively engage women and girls and reflect their opinions into all HPC phases.</td>
</tr>
<tr>
<td></td>
<td>☑ Increase meaningful partnerships between Women-Led Organizations (WLOs) and clusters/AoRs.</td>
</tr>
<tr>
<td><strong>Needs Assessment &amp; Analysis (HNO Process)</strong></td>
<td>☑ Identify the barriers and risks faced by women and girls, and their specific needs, and integrate this analysis in the HNOs.</td>
</tr>
<tr>
<td></td>
<td>☑ Meaningfully and safely consult women and girls.</td>
</tr>
<tr>
<td></td>
<td>☑ Partner with WLOs to conduct needs assessments.</td>
</tr>
<tr>
<td></td>
<td>☑ Where a face-to-face consultation is not possible, seek information from WLOs.</td>
</tr>
<tr>
<td><strong>Strategic Planning (HRP Process)</strong></td>
<td>☑ Include GBV risk mitigation measures that correspond to the HNO findings.</td>
</tr>
<tr>
<td></td>
<td>☑ Include sectoral objectives and indicators that reflect the GBVRM narrative.</td>
</tr>
<tr>
<td></td>
<td>☑ At very minimum include a safety audit and training of frontline workers on GBV referrals and GBVRM.</td>
</tr>
<tr>
<td></td>
<td>☑ Include capacity-strengthening of WLOs in HRPs.</td>
</tr>
<tr>
<td><strong>Implementation</strong></td>
<td>☑ Work with WLOs.</td>
</tr>
<tr>
<td></td>
<td>☑ Work with GBV partners and services (e.g. for safe referrals).</td>
</tr>
<tr>
<td></td>
<td>☑ Use safety audits and tweak the project interventions based on findings.</td>
</tr>
<tr>
<td><strong>Measuring, Monitoring and Evaluation</strong></td>
<td>☑ Integrate GBVRM into the project vetting criteria and the country-based pool funding allocation strategy.</td>
</tr>
<tr>
<td></td>
<td>☑ Include GBVRM activities in monitoring mechanisms (e.g. 5Ws).</td>
</tr>
<tr>
<td><strong>Training &amp; Institutionalization</strong></td>
<td>☑ Continuously build the capacity of partners in GBVRM jointly with GBV actors.</td>
</tr>
<tr>
<td></td>
<td>☑ Include mandatory trainings on GBV referrals and PSEA for all.</td>
</tr>
<tr>
<td></td>
<td>☑ Integrate GBVRM into cluster’s knowledge management plans and handovers.</td>
</tr>
</tbody>
</table>
OVERARCHING DOCUMENTS

Tools that can be used throughout all phases of the HPC.

Quality Checklist on AAP, Disability, GBV Risk Mitigation and Localization for HNOHRP

Why use it?
To ensure that GBV risk mitigation and other cross-cutting themes are meaningfully integrated into the HNOs and HRPs.

Matching Matrix for CP - Risks, Barriers, GBVRM measures, and Matching Indicators

Why use it?
To match barriers and risks faced by women and girls with GBVRM measures and indicators based on existing good practice across countries.

CP-GBV Checklist for Essential Actions

Why use it?
To mainstream GBV into CP throughout the HPC.

Case Study - GBV Risk Mitigation Integration into the HPC in the DRC (2020-2021)

Why use it?
To learn from DRC’s experience in implementing GBVRM across all of UNICEF-led clusters and AoRs in HNOs, HRPs and implementation.

All actors responding to a humanitarian emergency have a duty to protect those affected by crisis; this includes protecting them from GBV. Humanitarians must be aware of the risks of GBV in Child Protection and work to prevent and mitigate them together.
**NEEDS ASSESSMENT & ANALYSIS**

Tools to collect and analyze data on the risks and barriers faced by women and girls, as well as their specific needs.

<table>

STRATEGIC PLANNING
Tools to plan responses that fully tackle the risks and barriers faced by women and girls, and address their specific needs. Important note: Safety audits can be used throughout the HPC.

Child Protection Minimum Standards (Standard 9 on GBV)

Why use it?
To learn about minimum standards related to GBV in CP, including GBVRM. It includes indicators and additional resources.

Why use it?
For non GBV staff to learn how to conduct safety audits, i.e. to identify observable risks and assess specific vulnerabilities of women, girls, boys and men. (How-to guide + mapping of safety audits).

Participatory Safety Walk Guide and Safety Mapping Exercise

Why use it?
To enable adolescent girls and women to identify safety concerns they face in their areas via a 3 hour walk, or through a safety mapping exercise when conducting a walk is not possible.

Example of HRP Good Practices in Child Protection (2021 Case Study)

Why use it?
To learn from sectoral best practices in 2021 HRPs and get inspired for the following HPC.
IMPLEMENTATION
Tools to effectively integrate GBV risk mitigation into sectoral practice with the view of improving programming.

**How to Support GBV Survivors When a GBV Actor is Not Available (Pocket Guide)**

*Why use it?*
For all practitioners to be able to support a GBV survivor in a context where there is no GBV actor.

**Improving Safety for Women and Girls (Practical Highlights)**

*Why use it?*
To learn from practical field settings examples that successfully implemented GBV risk mitigation in humanitarian responses.

**Do-No-Harm Checklist for CP Partners**

*Why use it?*
To apply do-no-harm principles in CP programming, including key aspects of PSEA and Child Safeguarding.

**Mini Guide for Integrating MHM Into Humanitarian Response**

*Why use it?*
To integrate and mainstream MHM across all sectors.

“DRC’s clusters allocated 1% of their budgets to GBVRM and PSEA in 2021. It was the first time that an entire country committed to a specific budget allocation on cross-cutting themes – which represents a promising practice to scale.”
MONITORING AND EVALUATION
Tools to monitor and evaluate the implementation of GBV risk mitigation into sectoral work.

Tip Sheet: List of GBVRM Indicators

Why use it?
To identify core indicators for the HRP, HAC, and other partnerships/planning documents, to be able to monitor and evaluate GBV risk mitigation and safe, accessible, user-centered and effective programming across sectors.

Tip Sheet: Consulting With Women and Girls on Existing GBVRM Measures

Why use it?
To consult with women and girls on whether the GBV risk mitigation measures are effectively reducing barriers to services and helping them feel safer.

GBVRM Measurement Site

Why use it?
To integrate measurement of GBVRM into M&E processes.

Integrating GBV Consideration into CP Needs Assessment, Monitoring and Reporting

Why use it?
To safely integrate GBV considerations into CP assessments and M&E.

“GBVRM narrative in the HRP must be matched with corresponding indicators to monitor the implementation of GBVRM measures into sectoral work.”
TRAINING AND INSTITUTIONALIZATION
Tools to brief and train clusters and members on GBVRM, and institutionalize good practices.

**Short Video on the Effectiveness of GBV Risk Mitigation**

Why use it?
To use in trainings or briefings to show what GBVRM is, and why it is essential for effective, safe, and user-centered programming.

**Powerpoint Presentation on the Importance of GBVRM Across Sectors (2021)**

Why use it?
For advisors to use during trainings and briefings to clusters to raise awareness on the importance of integrating GBVRM.

**Webinar on Integrating GBV Risk Mitigation and Safe Referrals**

Why use it?
To learn how to integrate GBV risk mitigation and how to support a survivor of GBV through safe referrals (45 mn).

**Powerpoint Presentation on Monitoring and Reporting GBVRM (2021)**

Why use it?
To train/brief on how to monitor GBV risk mitigation in programs across sectors.

**Review of GBVRM Integration into HPC 2021**

Why use it?
To show how GBVRM was integrated into HNOHRP in 2021 with good practices and gaps (executive summary + deck). Some slides can be used for trainings.

**E-module on Monitoring GBV Risks in Nutrition Programming: The Implementation of Safety Audits and Safe Consultations**

Why use it?
To identify and mitigate GBV risks in sectoral work using an observation tool and conducting safe consultations with women (can be applied to all sectors) (1 hour).

**Report on GBVRM integration in Child Protection in HPC 2021**

Why use it?
To show how GBVRM was integrated into HNOHRP in 2021. Contains examples of good practices and highlights gaps to address.

**Webinar on integrating GBV and Nutrition Programming – Global Guidance and Country Experience (2020)**

Why use it?
To learn how to reinforce GBVRM into sectoral work using safety audits and other measures piloted in South Sudan (can be applied to all sectors) (1 hour).
### TRAINING AND INSTITUTIONALIZATION (CONTINUED)

Tools to brief and train clusters and members on GBVRM, and institutionalize good practices.
